"PC"

PAINTED BY WORDEN WOOD

The "PC" is primarily an escort vessel being designed for the sole purpose of slugging submarines. It carries its Sunday punch wrapped up in an "ash can" loaded with TNT. These depth charges are fired from a K-gun or rolled off the stern from racks to crush in the hull of the enemy sub with their explosive force. "PC" boats do duty in offshore patrol and supplement our destroyer force for convoy work.

"PC"s are being built by the hundreds. That means rope, rope and more rope. To help us meet the huge demand of our Army, Navy and Merchant Marine, please urge your customers to conserve what rope they have. Re-order only when necessary.

TAKE CARE OF THEIR SHOULDERS!
Horses and mules with sore shoulders are wounded soldiers in this struggle to feed a war-torn world. Horse and mule power is taking over the farming problem more and more as steel moves up to the firing line. More work hours by more horses and mules are necessary to fill the food basket of a world at war.

Ta-Pat-Co Collar Pads help insure our nation's crops by protecting the horses and mules that furnish the power to raise them.

**WHALE BRAND
SCREW DRIVERS**

A new design wherein blade, shoulder and shank are forged from one piece of Tool Steel. "No Slip" handgrip plus projecting flanges on shank that prevent blade from turning in handle, plus shoulder construction that saves handle splitting. Standard and Phillips types.

**WHALE BRAND
COPING SAWS**

Sturdy frames in a wide assortment of preferred sizes. The blades are of high carbon tempered saw steel—loop end or pin type—fine or coarse teeth for various kinds of work.

DOUBLE DUTY FOR THE DURATION . . .

Rationed? In quantity, yes—but in quality, definitely no! In fact, we are even more careful than ever to make double sure that every BLAKE & LAMB trap that leaves our plant for the jobber, for the dealer and for the trapper—is tempered and constructed so skillfully, so painstakingly that it will long outlast the war.

"OFF FOR TOKYO"

By The Light Of A Coleman Lantern!

They call it "The Army's Headlight"—this famous Coleman Floodlight Lantern—as it speeds up night work on war installations; floodlights night repairs on tanks and bombers in foreign service; helps tactical officers plan each night the Allied victories of tomorrow!

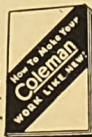

After the war, you'll be able to buy one of these "Lanterns-of-Tomorrow"—to floodlight a 100-ft. working area or camp site!

Meanwhile, on the home front, keep your own Coleman Appliances working like new. Send for free booklet telling how!

For Them Today—For YOU Tomorrow!

FREE! TO COLEMAN OWNERS:
Mail postcard for free booklet "How to Make Your Coleman Work Like New!" Quick, easy ways to get extra years of service from your old Coleman.

It's hard to turn away orders from old friends who have been buying Schluter products all these years.

But we know you'll understand and be patient when you realize that our factory facilities and personnel are now devoted 100% to the production of supplies of war for American boys on the far-flung battlefields of the world.

And we're giving this "all-out" production not only as a matter of necessity and patriotism, but as a matter of pride as well. For we like to feel that the lives of American boys are saved every day by helmets made in the Schluter factory...that the charge of a panzer division may be blasted by

Schluter-made anti-tank mines... that field range boilers produced by Schluter will bring hot food to our hard-fighting troops right up to the battle line.

No, we cannot make kitchenware, mop pails, garbage cans and the scores of other popular peacetime Schluter metalware products you know so well...because the workers, machinery and skill required for their production are now required for the making of frying pans, baking and roast pans, dippers, dishpans, mop

wringer pails, Navy pails, field range boilers, helmets and anti-tank mines which our armed forces must have NOW.

And while we realize how desperately you need the products we normally supply you, we know that you would not want us to turn away for an instant from the job that must be carried on so long as the sights of a single enemy gun are trained upon an American boy. When we cannot fill your orders, please remember — Schluter's gone to war!

Year after Year Give Leadership to **PFLUEGER REELS**

Winners in national fishing contests for many consecutive years have listed more Pflueger Reels than reels of any other make. In the "Big Fish Contest" of Field & Stream Magazine for 1942, over forty per cent of the winners caught their prize-winning fish with Pflueger Reels. Among those who caught prize-winning muskies, for example, first, second, fourth, sixth, seventh, eighth, ninth and tenth—8 out of 10 prize winners listed Pflueger Reels in their tackle used. In the wall-eyed pike class, 7 out of 10 winners used Pflueger Reels—including the sensational first prize 19-lb. 12-oz. wall-eye caught by Miss Hazel Griffin of Akron, Ohio.

The significant fact in these contests is that Pflueger Reels, like Pflueger Baits and other items of Pflueger Tackle, are preferred by the great majority of successful anglers. When Pflueger workmanship can again be turned to making Pflueger Fishing Tackle, better tackle than ever will be made under the name

PFLUEGER
SUPREME

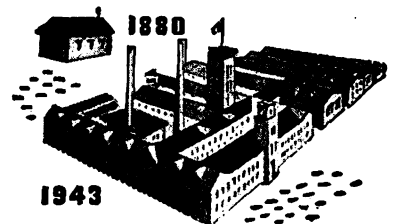

PFLUEGER

(PRONOUNCED "FLEW-GER")

A Great Name in Tackle

THE BOLTS WE CANNOT SEND YOUR JOBBER ARE ON THEIR WAY TO **Win** A WAR

● It's true enough. Aircraft require many millions of bolts, nuts and screws in their assembly. Tanks require bolts. So do guns. And trucks, and tractors, and all the equipment that fighting men need for warfare, are put together with bolts. "Priorities" limit your jobber's disposition of his stocks, curtail his orders, and for some types of bolts he can get no replacements "for the duration." Your jobber is "on the spot." You've depended upon him for years, now he must depend upon you for co-operation in his difficulties. To keep household,

yard and farm equipment operating, your Lamson bolt stocks are now indispensable. We are still manufacturing such bolts for your jobber, of course, and your jobber can supply you under definite restrictions imposed by the Government for the good of all. ● Ask for your copy of the Lamson "Ready Reference" List from your jobber's salesman, or from us. It's a handy visible indexed catalog and price list.

\$ 50.00 FOR A FLASHLIGHT!

We will pay \$50.00 to the person who submits the best idea for improving any Katzinger item—and \$5.00 for every idea we consider usable. Fair enough?

How would you like to see the most beautiful—the most practical and the most durable flashlite on every counter in the country after the war and be able to say "There's my ideal!"

It can happen! So, what ideas can you give us on our line of Katzinger Flashlites.

For example: What's your idea of the best flashlite grip?—the best switch?—the best lens?—the best reflector?

Can you suggest a better shape—any mechanical improvements—any ideas on how to merchandise and sell flashlites?

JUST TO GET STARTED...

Look at this Katzinger Flashlight

Start Thinking About This Right Now!

Here's an easy, quick way to make \$5.00—or \$50.00. Your idea may hit you any second—any place—in the store—in the office—between work and home. Your wife—or your husband may help you with a suggestion. But when you get it—jot it down and send it in!

NOTE: Be sure to give your name—for whom you work—what position you hold—and your business address.

RULES: All ideas submitted become the property of Edward Katzinger Company. Our decision as to winners will be final.

In case of ties, equal prizes will be awarded.

NO STRINGS TO THIS OFFER

Here's all you have to do: Sketch your idea roughly and tell us about it briefly in your own words. If you're one of those folks who can't draw a lick, just outline your idea in plain English. Style doesn't count—it's the idea that counts. Remember, you are not limited to the products shown on this page. Work from the Katzinger products on your counter or our catalog or your old listing sheets.

ALL SUGGESTIONS MUST BE IN BY AUGUST 1, 1943

COLUMBIAN

Tape-Marked Manila Rope

reserved exclusively for the fighting forces of the United States until the security of this country is assured

Columbian was not caught off-guard, nor short of essential cordage fibres when this war started. Long before Pearl Harbor, our resident organization in the Philippines was aware that war might start at any moment. As a result they accumulated an unusually large reserve stock of the finest Manila fibre and shipped it to this country, ready to supply our customers. But all the Manila fibre in the hands of all the rope-makers of the United Nations is needed to prosecute this global war, and our government rightfully earmarked Columbian's stocks for the exclusive use of the fighting forces.

For civilian uses we manufacture cordage of the best available fibre permitted for such uses by government regulation.

NUCUTS
set a good clip
IN FINISHING PROP WRENCHES
FOR SERVICING ENGINES OF
WORLD-FAMOUS CLIPPER SHIPS

IF YOU were to ask this Pan American mechanic what that device is on which he is working, he'd tell you it is a prop wrench. Or, as it is sometimes called, a persuader bar. An important piece of equipment for loosening the propeller blades of the huge engines that power P.A.A.'s world-famous Clipper Ships!

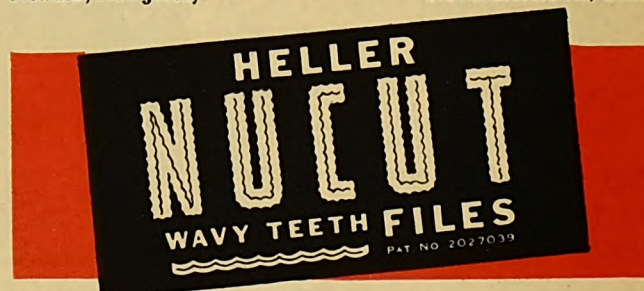

It is interesting to note that a NUCUT "Wavy Tooth" File is used in finishing the prop wrench to its final dimensions. Interesting,—but not unexpected! For, when it comes to cutting, shaping or finishing parts to dimensions quickly, a NUCUT File is the wise choice. Because of its patented combination of coarse teeth and fine teeth, precisely positioned in "wavy rows", a NUCUT cuts clean,

clear, true—and also levels the surface off smooth. Both at the same stroke! "More Cuts With NUCUTS" tells the story!

Your distributor will gladly give you full facts and figures on NUCUTS for filing everything from iron, steel, aluminum, brass, bronze and copper to slate, plastics, fiber and wood.

A FRANK STATEMENT ABOUT
CABINET HARDWARE *Best Sellers*

THE ROCKFORD LINE

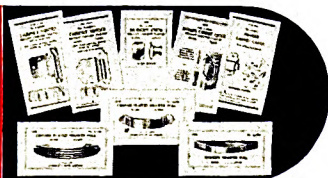

Although there has been a curtailment in the manufacture of the popular Rockford Line of Chrome Plated Kitchen Cabinet Hardware, we are still in a position to furnish many of the patterns and matched designs that have been so popular in the past.

In addition to this chrome plated line we are also able to supply many other designs in other finishes that are not only attractive but are popularly priced. Hardware dealers and jobbers in all sections of the country are depending upon National Lock Com-

pany as a reliable source of supply for cabinet hardware, butts and hinges, screws and bolts, molded plastic products, knobs, etc. These products are available "All From One Source of Supply" which saves time and enables you to get all the products you require from one source at one time.

Let National Lock be your dependable source of supply for cabinet hardware products of latest designs and styles. Complete matched sets of streamline design are very popular with our customers because they are truly "Styled to Sell."

**INDIVIDUAL
 ENVELOPE
 PACKAGING**

National Lock Cabinet Hardware products are individually packed complete with screws and application instructions in attractive, printed envelopes. This protects the fine finishes and facilitates handling as well. Also available are colorful display boards, furnished with complete matched sets of various styles of CATCHES, Pulls, Hinges and Knobs. Display board is FREE. You pay only for the hardware.

"Doc" Peters says

"HERE'S A POWERFUL GOOD BUSINESS FOR YOU

when ammunition is again available"

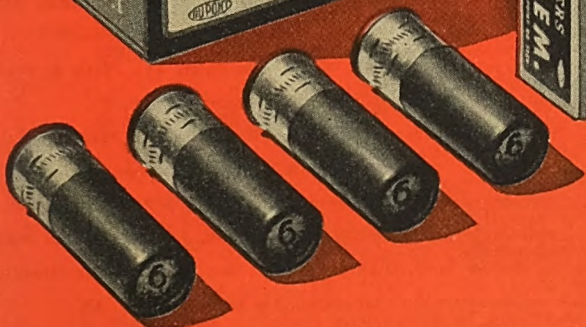

"Right now, Peters keeps reminding hunters and shooters about the Peters line. Peters advertising appears regularly in the outdoor, boys' and farm publications. So—when ammunition is again available—you can count on the Peters name being uppermost in their minds when they come to buy.

"In the first place—sportsmen have *confidence* in the Peters name. They know that Peters ammunition is backed by three generations of laboratory-perfected accuracy, reliability and rugged construction.

"And secondly—Peters has a reputation for *power*. Power that reaches *up* for high-flying birds, or *out* for fast-moving pests. Power that will stop big game cold in its tracks.

"Of course, Uncle Sam gets all the Peters output these days. But what Peters is learning *now* will mean maximum power for Peters shells and cartridges when Victory is won.

"That's why I say, 'Here's a *powerful* good business for you.' I mean a good *Peters* business—because Peters packs the power!"

LUCAS PAINTS

☆☆ QUALITY FOR NEARLY A CENTURY ☆☆☆

When John Lucas built the first Lucas paint plant at Gibbsboro, New Jersey, in 1849, he had one basic objective in mind—to bring to industry and home-owners the finest line of paints it was humanly possible to produce. Down through the years, this principle has been followed steadfastly. As a result, in 51 countries all over the world, the Lucas name today means *highest-quality paint*.

In addition to producing quality paints, Lucas has always

bent every effort to help its dealers sell more paint. To this end, it has constantly supplied a steady stream of tested business-building ideas and effective selling aids.

A long-established tradition of quality—progressive, sales-producing merchandising support—these are two reasons why Lucas Paints are so easy to sell. An inquiry on your letterhead, regarding the Lucas Paint Franchise in your neighborhood, will bring prompt response.

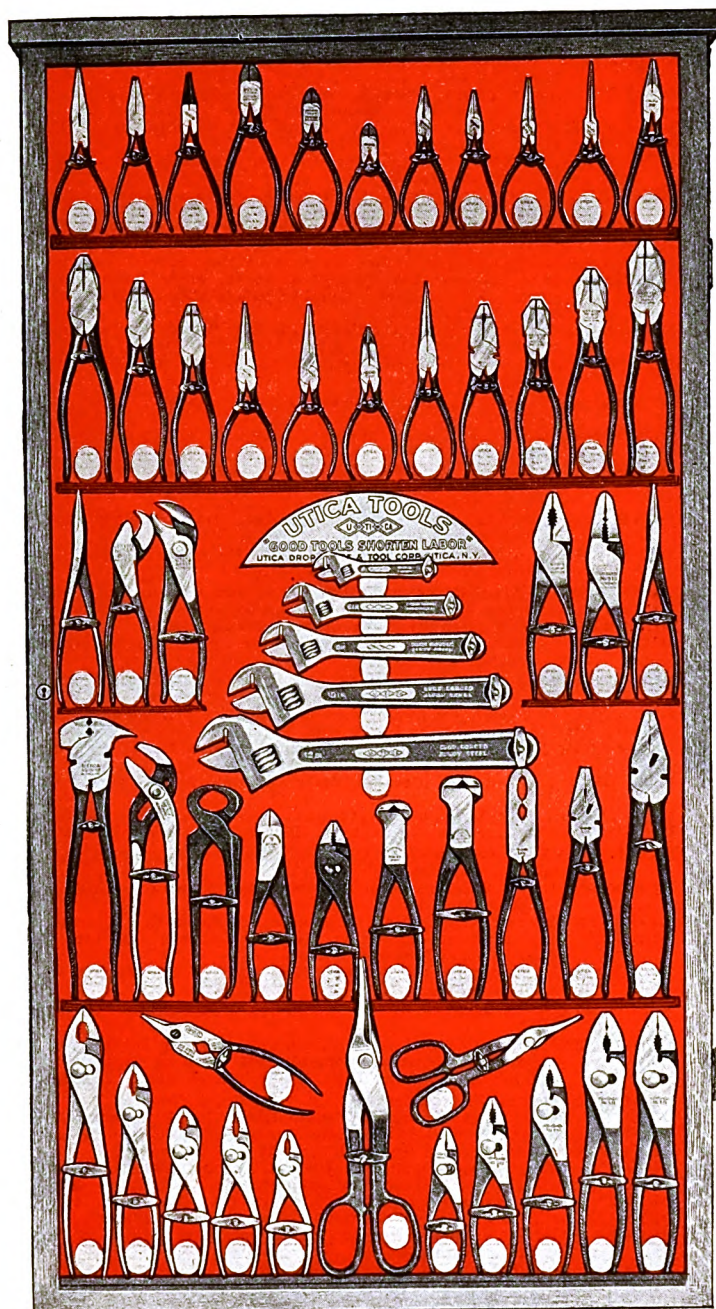

The Paint Line That Has Everything!

Always **FIRST**
on the WAR Jobs, too!

Shovels are even more important in War Service than they are in days of Peace. For example, they are usually the first tools to go into action for . . .

- Camp Construction
- Establishing Air Bases
- Constructing War Plants
- Building Roads, Bridges and Docks
- Maintaining Railroad Right of Ways
- Handling Materials
- and in the Production of Foods

For all of these essential uses, we are today manufacturing more Shovels, but fewer models of . . .

INGERSOLL
SHOVELS • SPADES • SCOOPS

All have the extra value of "Blade Edges Guaranteed Split-Proof", because they are made exclusively of TEM-CROSS Tillage Steel.

Distributors should make application on Form PD-IX with the Hardware and Small Tools Section of the War Production Board at Washington, D. C. for priority ratings that will enable us to give attention to their orders according to the relative priority ratings.

"Mosquitoes have inflicted greater destruction than all the armies of the world", says an eminent medical authority.

Houseflies are an equally serious menace to health.

These insects carry malaria, typhoid, dysentery, anthrax, and noted scientists have reported the finding of infantile paralysis germs on the common housefly.

Such epidemic diseases take a heavy toll in the health and efficiency of America's manpower, and in their prevention Screen Cloth is **VITAL EQUIPMENT.**

There is, however, a serious short-

age in the amount of Screen Cloth available for civilian use—and every foot should be utilized to the best possible advantage.

You can help spread the supply of screen cloth and serve more of your customers if you will carefully check window and door measurements and sell just the quantity they actually need. Also utilize every remnant and scrap of screening for patching small breaks and holes, rather than sell complete screen replacements.

Red Edge Screen Cloth will in this way, with your co-operation, safeguard the health of your customers and the community.

ALL the resources of Formica are being used today—twenty-four hours a day, seven days a week—to produce parts for airplanes, jeeps, tanks and other war machines. But the day the war ends they will again begin turning out push and kick plates for the hardware trade. No changes in equipment, no reconversion will be necessary.

Formica push and kick plates are handsome plates, in colors harmonizing with practically any door. They are easy to clean, require a minimum of polishing and maintenance, stand wear without end, and they are not brittle and do not break or crack.

No wonder they are so popular or that they won a place for themselves so quickly.

We are sorry that for the moment we are not able to take care of our old customers, but as soon as Victory comes you will be assured of quick, responsive service, and a thoroughly satisfactory item to sell.

★ ALLITH "PUSH-OVER" HARDWARE

Always economical and efficient. All working parts are simple and sturdy. There are no springs. The door is counterbalanced with a weight box to be filled with sand. The turn-over action as illustrated will clear any modern car with space to spare if rear bumpers clear the door.

The door can be sealed on all four sides with weatherstrips. All hardware parts are inside, protected from the weather. Ideal for basement installations, as only 5½ in. headroom is required.

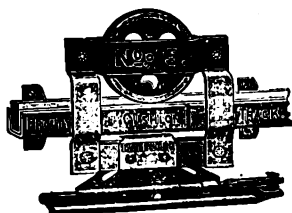

The positive locking-device holds the door against wind pressure and is designed to be secured with a standard padlock. When wanted, an individual cylinder locking handle can be furnished at a slight increase in price of set.

★ Allith Reliable Round Track Door Hangers

Available in four sizes and many types, to carry doors of any weight. Handles doors in parallel or in continuous runs.

SAMSON SPOT

REG. U. S. PAT. OFF.

REG. U. S. PAT. OFF.

Known to dealers, architects, builders and home owners, for nearly half a century, as the most durable material for hanging windows. Made for longest possible wear in running over pulleys or in any use requiring smooth, strong, solid braided cotton cord. Samson Spot Cord is made of extra-quality stock, smoothly braided and finished. It is carefully inspected and guaranteed free from imperfections. Identified by the Colored Spots, our trade mark (Reg. U. S. Pat. Off.)

PHOENIX

REG. U. S. PAT. OFF.

Next best value to Samson Spot Cord and known to the trade for nearly as long. An excellent cord for use where the best is not required. Uniform, strong and durable. All cotton yarn, no filling or adulterants. Good for clothes line and general use as well as for hanging windows.

AETNA

Made of coarser yarn but not "roving" — a good cord at a low price. Same yarn throughout, smooth, firm and tough. Contains no loading to increase weight and reduce durability.

REG. U. S. PAT. OFF.

We make a wide variety of other braided cords meeting all requirements for price and quality, also polished cotton twines and cordage specialties. Special cords furnished to meet special requirements.

CLOTHES LINE

Solid braided, full weight SASH CORD is under many conditions the best clothes line, because of its strength and durability, especially when used on pulleys.

PHOENIX SASH CORD is an excellent clothes line, being stronger, more durable and more firmly braided than ordinary sash cord or ordinary clothes line. It will resist wear and weather for years instead of months and is profitable to the dealer because it is sold on quality at a moderate price.

WHALE

A splendid line at a moderate price, and with exceptional sales features. Packed one dozen in a handsome display carton. Whale lines are made of good cotton yarn, solid braided, slightly more flexible than sash cord. About twice as strong as cheap "roving" lines. 50-ft. hanks, two connected. As a featured clothes line specialty, Whale in its attention getting packaging and at its

moderate retail price offers a means to profitable sales.

We make a variety of other clothes lines, varying in size, quality and price to meet all requirements.

SAMSON MASON'S LINE

Solid braided cotton, does not kink, stretch or ravel like twisted cord, and far more durable. White and drab with glazed finish. Sizes Nos. 3 1/2, 4, 4 1/2 in hanks 48 ft. each. All sizes also in coils, 1,000 yds. each.

FIGHTIN' FOOD for FIGHTIN' MEN!

NAPOLEON said that an army travels on its stomach. Good fighters need good food, and they want it HOT, whenever possible. With the aid of Food Containers made by NESCO, thousands of combat troops receive hot food right up in the front lines, when the going is too tough to bring the kitchen to the men or the men to the kitchen.

Food Containers are but one of the items, stamped with the trade mark "NESCO," used daily by our fighting men. We are proud that this mark of quality follows our armed forces wherever they may be. You, as a distributor, share in this too, by foregoing sales and profits on NESCO merchandise in order that our manufacturing facilities may serve this more important purpose.

When Peace comes, NESCO will be ready to resume its place as the leading name in Housewares. We are planning for it NOW, even while our factories are busy making the implements of war. We invite you to plan to participate in the advantages of buying THIRTY individual housewares lines from ONE source. The established name of "NESCO" assures ready consumer acceptance and the operating economies effected through concentrating your purchases mean greater profits and efficiency to you.

WAR WIRE! CORTLAND SCREEN WIRE

● Cortland wire is traveling in pretty fast company these days. It is with the best-equipped armed forces in the world. While it hasn't made the headlines, as has some of the more highly dramatized equipment, still it is

in there—doing a good, dependable, workman-like job.

● Cortland wholesalers and dealers have been prompt to understand why their favorite Cortland Brands are temporarily “flagged down” for government work. For they, in turn, are conserving stocks wherever possible by teaching consumers how to repair and care for screen wire cloth, hardware cloth and netting so that it will last out the war.

● In this way Cortland dealers and wholesalers, as well as the Cortland plants are aiding the war effort and hastening the day when Cortland wire products will resume their long-held position as one of the most dependable brands in the hardware field.

TIME OUT FOR WAR!

ON LAND

ON THE SEA

IN THE AIR

OFFICIAL U.S. ARMY AND NAVY PHOTOGRAPHS

From here on in IT'S **READING "WARWARE"**

The greatest contribution we can make to a quick decisive victory is to concentrate 100% of our time and facilities on the production of "fightin' stuff". READING Armor Plate helped the Marines make a landing in the Tulagi area in our first real offensive against the Japs. READING armor-piercing shot is proclaimed by ballistic experts as "tops" in performance.

These—and a hundred and one other parts, gadgets and what-nots manufactured by READING for assembly into tanks, planes, ships and guns—are helping our boys and Allies polish off the enemy so that you and we can again get back to the business of making and selling "buildin' stuff" that will be needed for post-war America.

In the meantime we have some startling new products, a new merchandising program, catalogs, dealer helps, etc. lined up ready to start a new page in the history of builders' hardware as soon as the Victory is won.

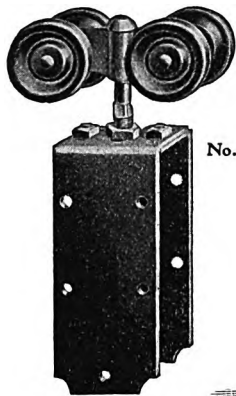

We'll be seeing you after the shootin' stops

FEATURES

ARMOR-D HANDLE

An armor of steel surrounds and locks the wooden fork. Provides smooth surface and adds strength to the handle. It is the most perfect handle yet invented. There is no wobble to an Armor-D Handle.

SHOVELS, SPADES & SCOOPS

Since 1774 Ames shovels have built America—169 years of service, that has become world-wide. Distinctive and exclusive "Ames" features are—Armor-D Handle, with its many advantages; electric welding, which gives the strongest known weld; shock band, that increases handle strength and die pressed labels, that can't come off. For Hollow Backs, the rivetless socket gives added handle strength. All grades of "Ames" shovels are heat treated.

These features increase wearing qualities and salability for seller, giving "Ames" its dominating leadership. With "Ames," there's a shovel for every purpose.

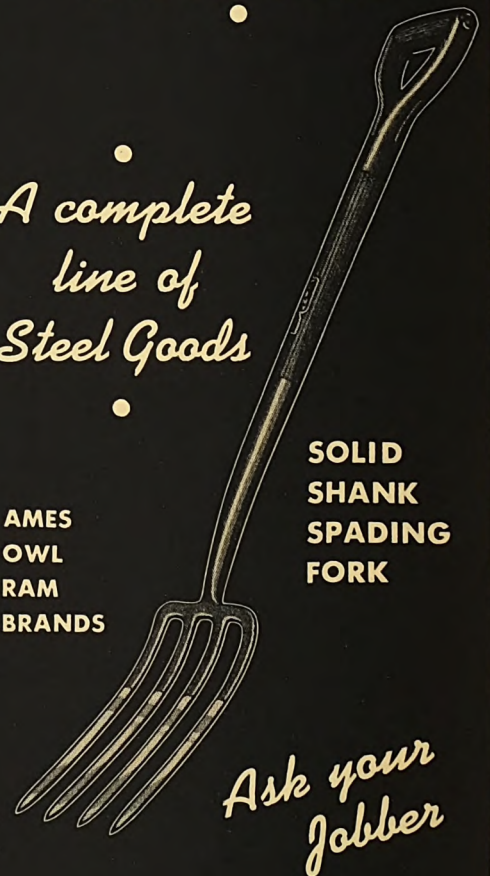

FORKS, HOES & RAKES

"Ames" time tested skill, ingenuity and complete resources were applied to the "Ames" line of Forks, Hoes and Rakes, announced six years ago. Alert to improvements, "Ames" engineers have made valuable refinements in these steel goods. Each grade represents the best that can be produced and is distinctive. Solid Shank Forks, Forged Socket Hoes in one piece and special rakes, constitute "Ames" unequalled development.

P. T. BOAT

With motors throttled to a mutter, the little boat slips cautiously toward the long shadow that looms against the stars.

Suddenly, aboard the warship, a siren screams, searchlights probe frantically over the waters . . . too late. The P. T. boat leaps in, launches its torpedo, and roars off at a tangent as a geyser of blinding flame towers upward into the night.

Handled by a tiny crew of daring men, these little P. T. boats pack a tremendous punch. They can deal a blow to destroy the biggest ship afloat.

Bethlehem is turning out steel for the P. T.'s marine engines, for their guns and shells, for the torpedoes they carry—as well as for other types of naval vessels, and for the thousand and one other types of war production. Bethlehem structural steel has put a roof over a substantial part of industry's war production; Bethlehem tool steel is

busily engaged in cutting, boring and forging in war-production plants; Bethlehem plates, sheets, bars, and forgings are going into tanks, jeeps, trucks, guns and other war products.

All this has of course severely limited the output of Bethlehem steel products distributed through hardware stores. But when the war has been won and trade again flows through normal, peace-time channels, Bethlehem woven wire fence and posts, barbed wire, galvanized roofing sheets, bolts and nuts, and other products will once more be available, through hardware dealers for the farmers and householders of America.

KLEIN TOOLS

FOR LINEMEN—ELECTRICIANS —MECHANICS

GOOD workmen demand good tools. The acceptance of Kleins by electricians, linemen and mechanics is a tribute to their high standard of quality. When your best customers say Klein—it's because they know quality tools mean a better job.

Klein Side Cutting Pliers

Suitable for use on bare or insulated wire. Powerful leverage, keen reinforced knives permit heavy cutting. Handles are shaped to fit the hand.

No.	Size

WHAT'S IN THE CARDS FOR POSTWAR SALES

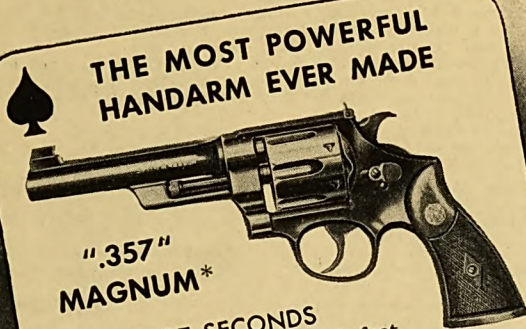

Remember the last war? Hundreds of thousands of young men who had never shot a gun before Uncle Sam taught them how, came home skillful shooters.

They didn't give it up either, but turned their skill to sport — and gun sales reached record highs.

After this war it's going to be the same — except that your sales prospects will come from 5 . . . 6 . . . 7,000,000 men, instead of the 2,000,000 of 1918.

To help you get the jump on this tremendous new demand, Smith & Wesson will go into production first on the four top-selling models illustrated below. Stock orders now being accepted for earliest possible delivery and at prices prevailing on date of shipment. First come — first served.

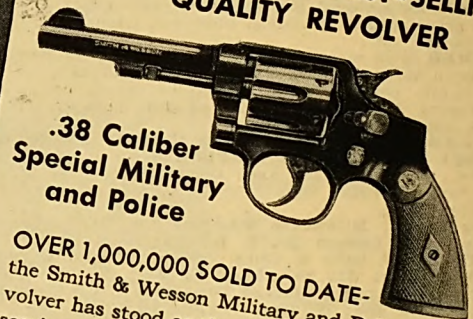

**THE MOST POWERFUL
HANDARM EVER MADE**

**".357"
MAGNUM***

1510 FOOT SECONDS
muzzle velocity . . . 807 foot
pounds of energy . . . handgun
power undreamed of until the S&W ".357"
Magnum* was introduced in 1937. Built for
men who want the best — top gun in the line
that has carried America's fame for
design and workmanship through-
out the world

*Reg. U. S. Pat. Off.

**AMERICA'S LARGEST-SELLING
QUALITY REVOLVER**

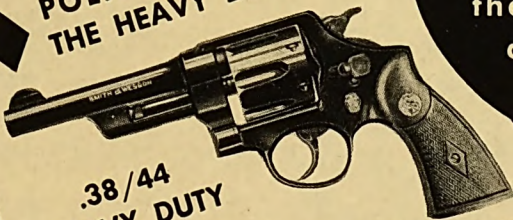

**.38 Caliber
Special Military
and Police**

OVER 1,000,000 SOLD TO DATE—
the Smith & Wesson Military and Police Re-
volver has stood as the criterion of quality in
service arms for over a quarter of a century.
A perfect gun for municipal police and sheriffs.
Incorporates all the 14 famous features
that make Smith & Wessons the world's
most reliable sidearms.

**4
SMITH & WESSON
ACES**

that will be first
available after
the war

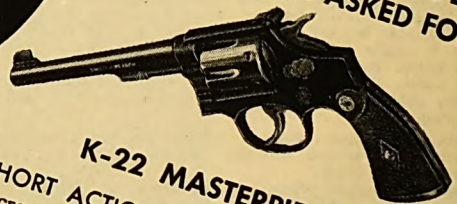

**POLICE FAVORITE IN
THE HEAVY DUTY CLASS**

**.38/44
HEAVY DUTY**

MADE TO TAKE IT! . . .
and dish it out, too! Chambered for
the entire line of .38 cal. special cartridges
right up to the extremely high-speed, modern
loads, such as the High Velocities, Metal-
Piercing .38 Specials and the .38/44 S&W
Specials. Here is an ideal gun for combating
automobile crime — particularly popular in
recent years with State Police Departments.

**THE TARGET REVOLVER
THE SHOOTERS ASKED FOR**

K-22 MASTERPIECE

SHORT ACTION SPEED LOCK . . .
micrometer sights, built-in anti-backlash trig-
ger, heavy frame, chambered for the .22 long
rifle cartridge; the Smith & Wesson K-22
Masterpiece is a truly modern, precision target
revolver. Introduced in 1939, the Masterpiece
overnight became one of the fastest-selling
members of the entire S&W family.

Pop's Just Been Decorated!

Sure he's proud of his old man! Doesn't that new Army-Navy "E" lapel pin prove that "pop" has stuck to his guns on the production front . . . worked night and day on a war assignment that's more sweat than blood, more grime than glory? It certainly does. The "unknown soldiers" of World War II are truly the dads who back up the men on the firing line.

We're proud, too, of the men, of the fathers and husbands . . . yes, and mothers and wives . . . whose devotion to duty in our Bucyrus plant has earned the coveted Army-Navy "E" Award. Even as that emblem of excellence is raised for past performance, they have dedicated themselves to new achievements in producing all types

of hose to help our armed forces win this war faster. Two hundred and eighty strong, they have pledged intensive united effort as a tribute to their seventy-five fellow workers now in the service . . . as a tribute to the millions of Americans fighting throughout the world.

We can conceive of no better way to serve you now than by speeding the day of Victory. We'll stick to that aim.

LE PAGE'S GLUE

This shows the new 10c line of bottles and tubes. The 10c bottles are packed in attractive counter displays while the tubes are packed on a very striking display card.

The large bottles and tubes are packed in one dozen colored counter displays individually cartoned. Gill size packed in counter display holding one dozen. All cans have outside friction tops easily removed, quickly closed. National advertising has helped to make sales easier on this line.

LE PAGE'S GRIPSREADER MUCILAGE

A patented rubber-spreader idea. Squeeze rubber tip, invert bottle and spread. Has switched millions of people from old-fashioned paste pots and jars. A special process gives this high-grade mucilage a quick, sure stick. Two sizes retailing for 10 and 25 cents. In counter displays holding one dozen each.

LE PAGE'S LIQUID SOLDER

A dependable product that has proven a wonderful seller. Fixes metals — mends practically all materials—fabrics, leather, radiators, kitchenware, furniture, crockery, glass, ivory, wood and numerous other articles.

Metal demonstrator attached to each card helps sell it. One dozen tubes on beautifully lithographed display card makes it a counter attraction.

LE PAGE'S COLD WATER SIZE

The light color makes it suitable for light colored paints and finishes. Spreads easily—leaving a hard, flexible film or surface forming an ideal anchorage for paper or paint. For use on new or old walls—plaster or wall boards before painting or papering. Shows up hot spots—stops suction—odorless—does not crack or peel or show laps. A standard size with America's Decorators.

No. 620	—50 lbs. to case—(1 lb. cartons)
No. 620A	—48 lbs. to case—(4 one dozen displays)

Also Le Page's Tested Glues, Household Cement, Wheat Paste, Aeroplane Glue, etc.

WIN - MOST PRIZES for BIG FISH!

Again for 1942, the announcement of the winners in Field & Stream's National Fish Contest shows that top honors go to users of

HEDDON BAITS

Users of Heddon Lures won 13 out of 40 possible prizes in these four classes:

One-Piece Sinking
"River-Run-Speak"

FIRST, fourth, sixth and seventh in Small Mouth Black Bass (Northern Division)
FIRST and fifth in Large Mouth Black Bass (Northern Division)
FIRST, third and fourth in Large Mouth Black Bass (Florida Division)
FIRST, fifth, sixth and tenth in Muskellunge (55 pounds)

In addition, Heddon Lures won 8 prizes in other Divisions and Heddon Rods landed 28 of the prize winners in all classes, including 5 out of the 10 prize-winning muskies and the largest sailfish, weighing 90 lbs.

For more than a quarter of a century, all National Fish Contests have proved, and fishermen, everywhere, have found that —

One-Piece Floating
"River-Run-Speak"

"Heddon Baits Get the BIG ONES"

Yours for "Good Fighting" and "Good Fishing." We'll do all we can for BOTH!

HERE ARE THE RANGES YOU DIDN'T GET!

... And it's a vast satisfaction to know that the ranges we couldn't ship you are feeding your boys and your neighbors' boys in the Army, Navy, Air and Merchant service on sea and on land all over the world. We are ready to serve you again with new and finer models of the world's finest ranges when it's over and the boys are back—may it not be long. We can still supply oil, coal and gas fired commercial ranges and ovens for private use where such sales will further the war effort. Write for information.

Students OF

ART APPRECIATION

Meet Mary and Bob from the Victor plant. They're working side by side on war goods and planning all the while for the home they're going to have together after the war.

We thought you might like to know them because they're so typical of millions of your post-war customers. Because of the precision in the work they see all around them, Mary and Bob have a new awareness and appreciation of fine workmanship. They know quality when they see it.

Does it make sense to suppose that millions of folks will measure value with a new yard stick? We think it does and assure you Victor Fans will be made with an eye on Mary and Bob.

Dōo-Klip

LAWN TOOLS

America's Favorite Grass Shears and Weeder

Every person who tends a lawn needs at least two of these fine Dōo-Klip Lawn Tools. Dōo-Klip's famous up-and-down grip action makes weeding or trimming a lawn easy, especially the long-handled Dōo-Klips, which eliminate stooping and back-ache, as they are used standing erect.

For the duration all of our facilities are being used to help defeat our nation's enemies. Dōo-Klip dependability is being built into equipment for our fighters on land, sea, and air. It is serving on all fighting fronts. When Victory is won, Dōo-Klip dependability and service will reappear on the home front in a lawn tool line which we feel will serve you well.

Quick Profits in WATER BAGS

HERE is a fast-moving, no-priority item that is available right now. Water bags are proved; used in West over 50 years!

Eagle Brand water bags lick thirst by giving cool, refreshing water to drink on-the-spot. How? By using Natural evaporation. Water slowly seeps through the specially processed canvas which controls the amount of seepage. Evaporation produces refrigeration; thus cooling the water inside the bag. Yes; it's as simple as that.

Wherever outdoor work is done, in direct sunlight, when the temperature is 100° in the shade, Eagle Brand water bags fill a real need. Far superior to old methods, these bags keep water cool and clean to the last drink. Supply the demand for Eagle Brand water bags and cash in on steady profits.

ADVERTISING
STEPPED UP IN '43**

Advertisements in 17 leading farm publications create new sales opportunities for dealers.

YOUR *Bicycle Business* IS WHAT YOU MAKE IT!

Under the liberalized rationing regulations it is more like old times in the bicycle business, with this important difference—thousands who ordinarily would have no need for a bicycle, now need one urgently!

You can cash in on this new demand. It's up to you to get the new wartime model bicycles into the hands of those in your community entitled to consumer certificates. So act at once—make an honest effort to educate and *help* eligible persons to buy a bicycle.

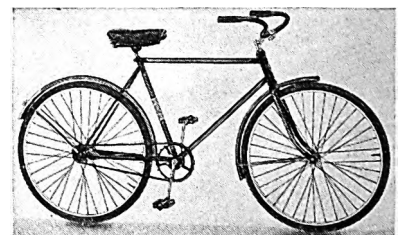

It is up to you, as the bicycle distributor in your community, to supply this transportation need! Act now, and cash in on the increasing bicycle sales!

Bassick Casters

AVAILABLE FOR ESSENTIAL REQUIREMENTS ON PRIORITY ORDERS

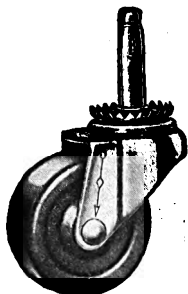

Furniture casters are necessarily made largely of critical materials. They can be produced and made available only for essential requirements and shipped only on orders carrying proper priority ratings. It is impractical to attempt to make available the hundreds of sizes and types of Bassick casters produced under normal conditions. The items listed on this page are those which will be continued in production and furnished in accordance with necessary War restrictions and regulations.

YALE'S Wartime Progress Plan Helps the Hardware Dealers of America

1. **Build sales by special wartime promotions**
2. **Build good will and better post-war business**
3. **Promote activities that help win the war**

Anticipating the problems which many hardware dealers are facing today, early in 1942 Yale inaugurated a Wartime Progress Plan to help dealers plan their business and keep sales volume in spite of shortages in many lines.

Yale's Wartime Progress Plan stresses the sale of groups of related products in a series of seasonal drives. The special drives, such as A.R.P., Victory Gardens, or Home Maintenance campaigns, are described in Yale's "Victory News" appearing regularly in your hardware papers.

Here you will find business-building *ideas* for special displays, new departments, new lines, or cost-cutting and time-saving methods. By following Yale's Wartime Progress Plan, dealers establish their stores as centers for constructive patriotism and civilian wartime activity. For complete information, write The Yale & Towne Mfg. Co., 201 Henry Street, Stamford, Connecticut, U.S.A.

How Yale & Towne — makers of locks — are helping you sell hundreds of other products

The advertisement shown here is one of a series urging thousands of *Saturday Evening Post* readers to "Shop at Your Local Hardware Store."

In this way, Yale advertising is helping you sell home maintenance equipment, Victory Garden equipment and other products which you still can sell.

With The Armed Forces . . .

YALE Locks and Builders' Hardware Are Serving the War Effort

1. In Army Camps, Air Bases, and Overseas

2. In Naval Stations, Ships and Stores

3. In Vital Industries Producing for War

Since Pearl Harbor, Yale-Quality Locks and Builders' Hardware have "gone to war". The demands of the Armed Forces, and the inevitable restrictions on civilian output, have severely curtailed the normal peacetime selection of Yale Products available to the trade.

In addition, Yale's precision workmanship and production facilities have been enlisted for the duration to help make parts and products for other U. S. War Industries.

Nevertheless, in the midst of war production, Yale remembers you, our friends and dealers, who have helped so much to build the firm foundation on which our service to the nation is based. Yale's Wartime Progress Plan is part of our continuing effort to keep the Home Front — and your business — strong.

F&W WATER SYSTEMS

Are Dependable

Dependability is the most sought for quality in any piece of equipment during these critical war days.

Dependability is the outstanding characteristic of F & W ejector water systems. Their record for continuous satisfactory operations, with a minimum of attention, has won the high regard of dealers and users alike.

Because of the necessity of "more water to raise more food", and the importance of saving manpower on farms WPB has authorized us to manufacture a limited number of F & W systems this year. These are being distributed, as equitably as possible and under established regulations.

Compact, simplified design of F & W ejector pumps, eliminates many moving parts, makes for greater dependability. No belts, no gears, no rods in well; no lubrication required because bearings are packed for permanent service. Models for shallow wells, medium deep and deep wells. F & W deep well ejector pumps have automatic control valve which adjusts itself to varying well depths.

We have greatly expanded our facilities for direct war production so, when victory is won, we shall be better prepared than ever to produce our complete line of farm and household pumps . . . Also Star Zephyr windmills.

Where is Wire Mill Production Going?

*Big
Job for WIRE*

...into

CARBINES, for Example

These carbine parts are just a few of thousands of wire mill products for war uses.

Protecting War P

... Dealers ARE now receiving an appreciable tonnage of Keystone woven wire fence and barbed wire. Even larger amounts may possibly be released as the months go by. This is because the Government realizes the urgent need for fence as a wartime food production "tool".

The present Keystone fence is restricted to plain galvanized wire—probably for the duration—because of the limited amount of zinc released. Zinc shortage prohibits the extra heavy "galvannealed" coating for which RED BRAND fence is famous. That's why the familiar "top wire painted red" does NOT appear on the Keystone fence you now receive.

And After Victory

Bayonets before Butter

Sure it's tough to have to reduce production and delivery of our bread-and-butter peacetime products, to save metal for war weapons.

But you and we both want Victory as soon as possible—so as to bring back your sons and brothers, and ours. Therefore, we're both having to get along with much less hardware business than we'd like to have.

Our only hope is that *you* will understand the present fix we're in, and will continue to remember us favorably for our Peacetime quality and service. Our jobbers cannot now fill all orders, because we cannot supply much to them. But what there is, is being distributed as fairly as we and they know how.

WE'LL BE BACK

... and we hope it may be soon, with *all you want* of these top quality hardware products—in brands famous for friendly service and satisfaction.

PIONEERS

Need any information on how to clean "DL" valves and keep them going for the duration? We will send you instruction sheets and repair parts lists if you wish. Just drop us a line. Be sure to mention the numbers on the valve name plate, so we can send you correct information.

Oil is Ammunition
USE IT WISELY!

Detroit Lubricator Company, over the years, has pioneered in the float valve field.

The first constant level valve and the first safety float valve were born on the drawing boards at Detroit Lubricator Company. The single float type valve using one float for the dual functions of maintaining constant fuel level and releasing the trip mechanism is another of our major contributions to "Simplicity of Design", which has always been our watchword.

Our latest contribution to the reliability of oil heaters is the patented thermostatic compensator which maintains a more constant oil flow—regardless of the temperature of the oil, whether it be 40° below zero, or 100° in the shade.

When oil burning equipment is again available to the public, "DL" float valves will be a vital part of the better space heaters and water heaters which you will sell.

**DEVOE ADVERTISING—
IN NATIONAL MAGAZINES — funnels
SALES and PROFITS right into your Store**

Into the top of this funnel, Devoe pours its national advertising — sales-making advertisements in magazines reaching millions of home-loving people — selling them Devoe — selling your services as the leading paint dealer in your community.

Funneling this Devoe national advertising into your store — converting it into sales — is a matter of co-operation. To make that easy — Devoe has created hard-hitting sales material for your use in your local papers, in your windows, on your counters. It is free to Devoe dealers. Ask for it today — put it to work — get your share of the profitable business that Devoe national advertising is creating for all Devoe dealers.

A Devoe Agency Franchise is a valuable asset . . . an "insurance policy" for successful paint departments. They are still available in some communities. It will pay you to get complete details from the Devoe representative in your territory. A request on your letterhead will bring immediate action. "People who know — handle Devoe."

"GIVE 'EM SOMETHING USEFUL!"

How RB&W—one of the world's largest manufacturers of bolts, nuts, rivets and allied fasteners—is increasing the value of your RB&W franchise—after the war.

Free posters for your customers' bulletin boards... driving home the life-and-death importance of workers' care in wartime manufacture... are building remembrance and good will for the R B & W EMPIRE brand.

Posters like this one shown here... based on ads appearing in FORTUNE, NEWSWEEK, BUSINESS WEEK, UNITED STATES NEWS, STEEL, IRON AGE... are yours for the asking.

You, too, are invited to give your customers—"something useful", something to remember you by, war-time or peacetime. Write today.

BACKED BY 75 YEARS OF

MILLERS FALLS TOOLS

SINCE 1868

Not a product . . . but the single feature of Millers Falls quality tools which is the most valuable of all — the Millers Falls trademark, silent evidence of quality design, materials, and manufacture.

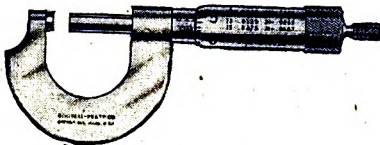

GLASS CUTTERS

Turret head, single wheel, gauge, and circular. Oil-honed wheels, each tested on glass before shipment.

COMBINATION SQUARES

Precision ground, with or without level and scriber.

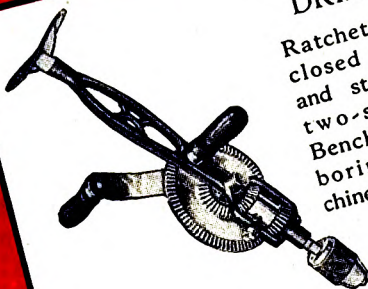

PRECISION TOOLS

Micrometers; squares, sets, bevel protractors.

HACK SAW FRAMES

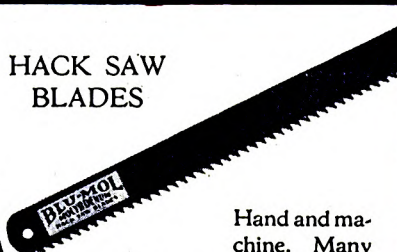

Finest frame ever made. No. 84; many others. Key-hole hack saw. Five butchers' saws, two kitchen saws, others.

BREAST DRILLS

Ratchet, enclosed gear, and standard two-speed. Bench drills, boring machines.

HACK SAW BLADES

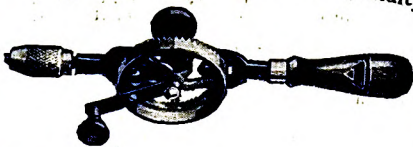

Hand and machine. Many sizes and styles, from $\frac{1}{16}$ " x 8" to $1\frac{1}{2}$ " x 24", including twin-cutting edged Double-Life Blu-Mol, sensational cost saver. Band saws, hole saws.

In 1943, Millers Falls Company completes three-quarters of a century of quality tool manufacture. The Millers Falls tools daily leaving our shipping platforms reflect the study, experimenting, and experience of many skilled men over this full seventy-five year period. For the tools we make *today* are the best we've *ever* made . . . and still they're improving, as new developments and refinements in materials and production practices come along.

Millers Falls Company had planned to celebrate this "Diamond Jubilee" year with suitable ceremony — new tools and special deals that would let our friends in the hardware trade share our feeling of accomplishment . . . and let you win new customers

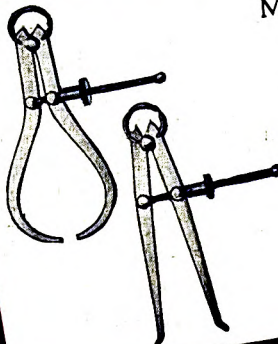

HAND DRILLS

Straight and ratchet, single and two-speed, many styles; a Millers Falls specialty.

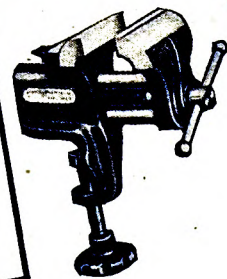

MACHINISTS' TOOLS

Rules; thickness gauges; calipers and dividers; screw pitch, depth, center, and surface gauges.

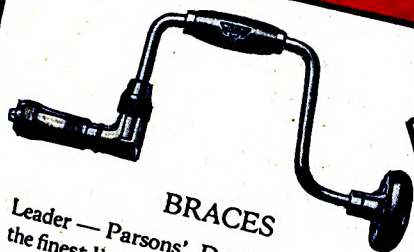

BENCH VISES

Four models, 1 to $2\frac{1}{2}$ " jaws. Also bench drill vises, hand vises, swivel vises, carpenters' vises.

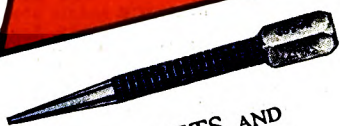

MILLERS FALLS COMPANY

QUALITY TOOL MAKING

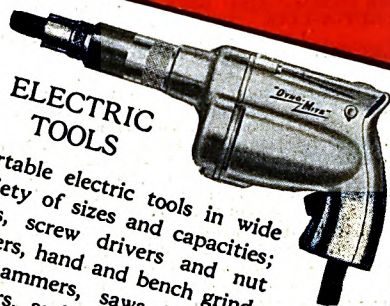

BRACES

Leader — Parsons' De Luxe heading up the finest line of braces made. Also ratchet, corner, whimble, angular braces; auger handles. See catalog for details.

NAIL SETS AND FORGED TOOLS

Nail sets, star drills, taper pin punches, long heavy pin punches; solid or tinners' punches, aligning or drift punches, cold chisels, long cold chisels, cape chisels, diamond points.

ELECTRIC TOOLS

Portable electric tools in wide variety of sizes and capacities; drills, screw drivers and nut runners, hand and bench grinders, hammers, saws, disc sanders and polishers. Stands, adapters, accessories broaden range of uses.

SPIRAL RATCHET SCREW DRIVERS

Nine models and sizes, including favorite No. 29 (illustrated) with quick return. Straight and Phillips bits. Drilling attachments available for most models.

AUTOMATIC DRILLS

Leading favorite. Mr. Punch (illustrated). Other styles — all sturdy, smooth; long-lived mechanisms.

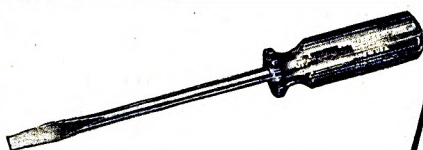

and a bit of extra profit as well.

Of course the war makes this impossible. Our one big job now, is to help make Victory an accomplished fact. New tools and special deals are out . . . most of our stripped-down wartime line goes directly to the armed forces and to war production plants.

The good side of this is that we are helping to win the war . . . and that many new people are learning about the fine qualities of Millers Falls tools. They'll be your customers after the war.

Meanwhile, send us your priority-rated orders . . . we'll help you all we can.

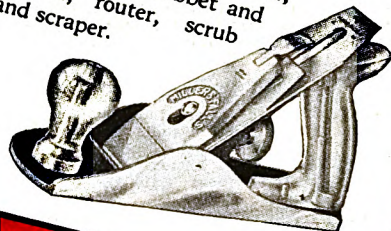

MILLERS FALLS COMPANY
GREENFIELD, MASS.

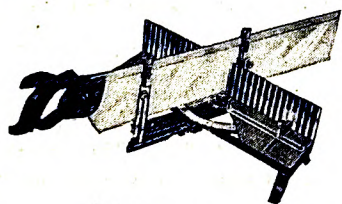

SCREW DRIVERS

Many models and sizes in plain, spiral ratchet, right angle, machinists', pocket, offset, and Phillips bit.

Many models and sizes in smooth, jack, fore, jointer, block, rabbet, rabbet and fillister, router, scrub and scraper.

PLANES

MITRE BOXES

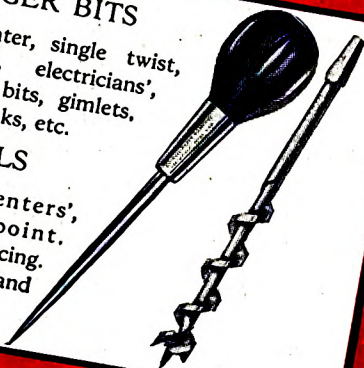

Complete line; mitre boxes, metal-cutting boxes, portables, open fronts.

AUGER BITS

Solid center, single twist, expansive, electricians', ship; car bits, gimlets, counter sinks, etc.

AWLS

Ship-carpenters', diamond point, scratch, piercing. Tack claws and tool handles.

MILLERS FALLS TOOLS

SINCE 1868

The Millers Falls name is now succeeding the Goodell-Pratt name on most tools in the combined lines.

To ECLIPSE LAWN MOWER CO.

for Exceptional Accomplishment in the
Production of War Equipment

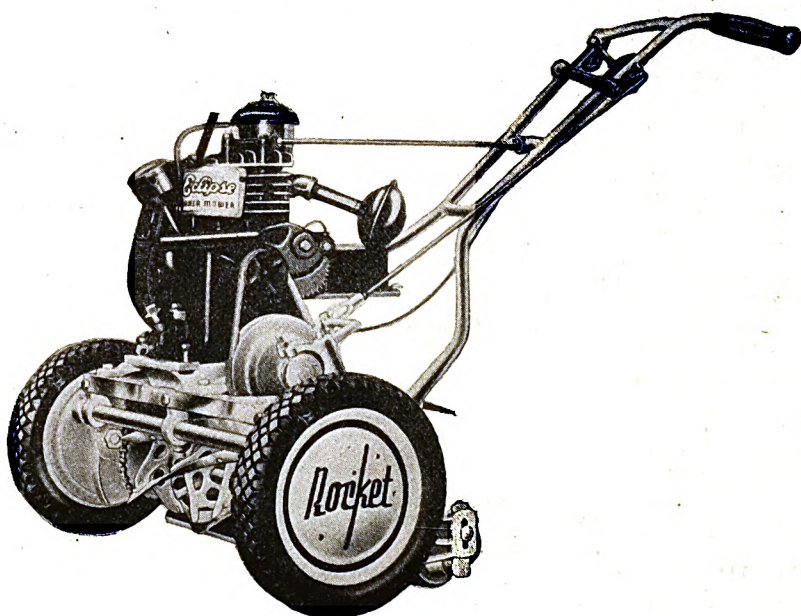

We are proud to be the first of the Lawn-Mower industry to win the Army-Navy "E" award, signifying excellence in War production.

Sincere tribute for this honor is paid to our loyal and patriotic employees for exceeding every production quota, and to the fine cooperation and understanding of our hardware dealer customers. The hardware stores are without Eclipse lawn mowers so that War materials can get to the fighting forces.

We fly this flag proudly and are aware of the responsibility of this reminder as a challenge to still greater achievements.

Today Eclipse hand and power lawn mowers are not available. We can furnish replacement parts for Eclipse lawn mowers now in service. When Victory comes tomorrow, Eclipse representatives will again call with the latest of lawn mower developments and with the traditional Eclipse quality.

ONEIDA VICTOR

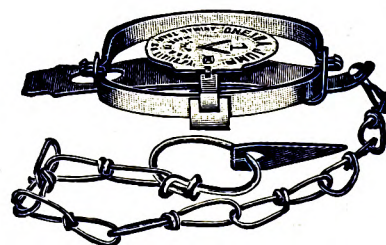

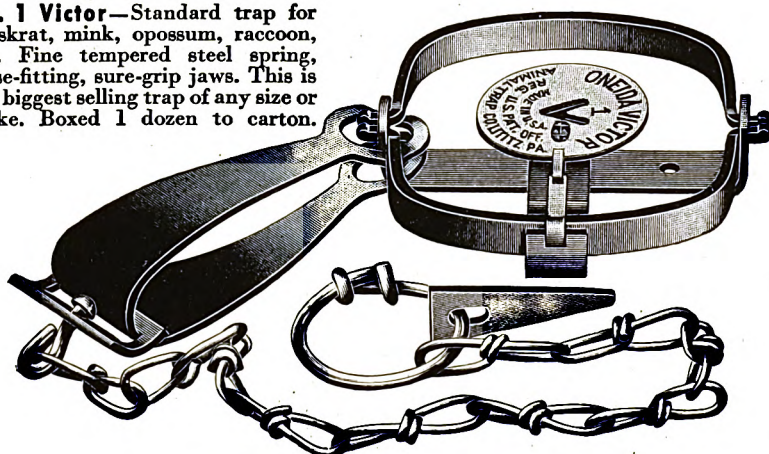

First in Peace

ANIMAL Trap Company of America—leading producer of steel traps in peacetime—have been honored with the Army-Navy “E” for “great accomplishment in the production of war equipment.” Men, metal and machines that once would have made traps for American fur bearers are now busy helping the armed forces to “trap” Axis predators.

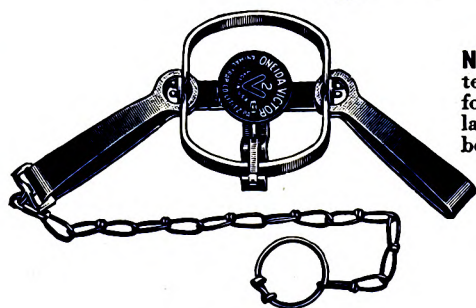

Naturally, America’s military needs must come first . . . but, so far as regulations and circumstances permit, the company continues limited manufacture for civilian requirements. Animal Trap Company thanks the hardware trade for its cheerful acceptance of the simplified line that makes it possible to continue civilian production.

Hold the Catch . . . Hold the Customer !

No. 1 Victor—Standard trap for muskrat, mink, opossum, raccoon, etc. Fine tempered steel spring, close-fitting, sure-grip jaws. This is the biggest selling trap of any size or make. Boxed 1 dozen to carton.

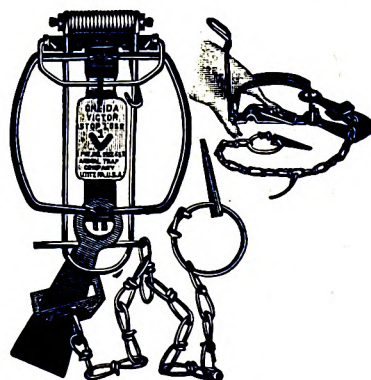

No. 1 ONEIDA Jump—Ideal trap for small, compact “set”. Recommended for muskrat, mink, skunk, etc. Made from heat-treated steel. Powerful steel jaws. Boxed 1 dozen to carton.

No. 2 Victor—Double springs of tempered steel. For opossum, fox and raccoon. Same trap in larger sizes (Nos. 3 and 4) for beaver, coyote, wildcat, wolf, etc.

→ **VICTOR Stop-Loss No. 1 VG.** Especially recommended for muskrat. Note new wide spring and delayed action guard.

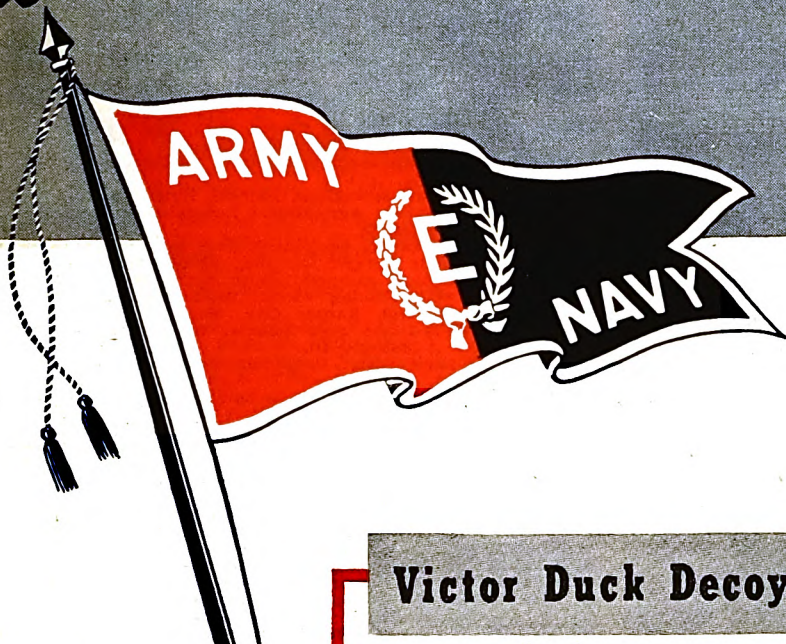

DISPLAYS TRAP . . . PREVENTS DAMAGE !

Light and compact, this specially constructed counter display permits traps to be shown and examined without risk of damage to your counter. Stands 15 1/4" high by 10 3/4" wide. Exclusive with Victor.

NOW**WEAPONS OF WAR...****AFTER VICTORY****PRODUCTS OF PEACE**

FOR the duration, Murray Ohio has pledged its entire resources to "all-out" production of vital war material for the Army and Navy. For this reason, we feel sure our friends in the trade understand why we cannot supply them with merchandise. • However, we eagerly await the final hour of triumph by our armed forces. Then, we can rapidly supply you once again with Mercury Bicycles and Steelcraft Juvenile Wheel Goods.

The men and women of Murray Ohio have won the coveted Army-Navy "E" Award for outstanding production of war materials.

Uncle Sam HAS THE
"GO AHEAD" NOW

SHOVELS • HOES • RAKES

Like every vital manufacturer, war production has first call on all our merchandise, equipment and facilities. And we are proud to be able to turn the Hamlin standards of quality and production against those who have challenged our America.

Having done our full share, we'll be prouder still when the coming of a victorious peace permits us to again offer you the advantages of the profitable Hamlin Quality Line.

Until then — remember the name Hamlin — it enabled you to make money at competitive prices and we'll be first to do it again.

CLEAN!

MADE GOOD!

A WRINGER bearing wore out—but this tidy housewife did not lose a single day . . . her HORTON dealer was right on the job, just as are hundreds of other Horton dealers who have realized the importance of service in days when appliances cannot be replaced. Washing machines and ironers must be kept in service. Do not wait for an emergency call. Visit your customers. Inspect their machines—and keep 'em running.

Horton has a complete stock of spare parts. Check your supply today—and order early.

Horton employees, for excellence of production of war materials, have received the Army-Navy "E" award—and for investing 10% of their earnings in War Bonds they proudly fly the Minute Man Banner.

EVERYBODY WANTS TO

Save Rubber!

SELL THEM THE SPEAKER SYSTEM

for PERMANENT VULCANIZED REPAIRS OF
 Auto, Truck, Tractor & Bicycle Tubes
 Football Bladders • Boots
 Galoshes • Rubber Coats
 Bathing Suits • Hot Water Bags
... and many other items

Every customer entering your place of business will welcome the "Speaker System" of permanent vulcanizing-repairs to save rubber! It is the ideal method for many rubber articles, as suggested by partial list above...ALL can be expertly repaired with Speaker "MATCH PATCH" Vulcanizing units.

Everyone recognizes the Speaker "MATCH PATCH" Vulcanizing System as the practical, permanent method of making rubber repairs. "MATCH PATCH" is not merely stuck onto the surface with hope that it won't loosen, peel off or shift... instead, "MATCH PATCH" permanently "welds" itself to, and becomes an integral part of the vulcanized rubber area, therefore, cannot peel off, loosen or shift. It flexes and stretches the same as the rest of the rubber does... actually combines with the original rubber... remains an inseparable part of it.

"MATCH PATCH" Emergency Kits are ready sellers... and Speaker helps you merchandise them for fast turnover at good profit. Every motorist should carry the T-10 Emergency Kit with 10 "MATCH PATCH" units, or the T-3 Emergency Kit with 3 units, for roadside emergency repairs... if the spare is shot and a blowout or puncture occurs, these "MATCH PATCH" Emergency Kits for roadside repairs are "lifesavers" as well as rubber savers!

ORDER FROM YOUR JOBBER... DISPLAY "MATCH PATCH" KITS, NOW!

★ **AND HERE'S A SENSATIONAL New FAST SELLER... "HEATABS"**... used by America's armed forces for heating combat rations... many civilian uses. ASK YOUR JOBBER about the nationally advertised...

WHO'S AMERICA'S BUSIEST MAN?

**NO CEILING ON TIME, NO LABOR TO SPARE,
THE BUSIEST MAN RUNS THE LOCAL HARDWARE**

No doubt about it, one of the country's busiest men is the Hardware Merchant. He prescribes for every residential ailment, is the Fixit Center for the Community. He's so busy keeping the Home Front running that we marvel at his endurance and his ingenuity. Jack-of-All Trades, he's a specialist in each. In the months to come, his store will play an even greater part in building civilian morale.

Of course, all hardware merchants know all about Libbey-Owens-Ford Quality Glass...how the longer annealing process makes for easier handling, easier cutting and reduced breakage. And their customers appreciate its greater clarity and brightness. So, if you don't have a full stock of L·O·F Window Glass, ask your regular L·O·F Distributor to replenish your supply now. ★ ★ ★

FOR BOMBS or BUGS or BEANS

FOR HOMES

Put out small fires quickly to prevent big ones. For complete protection have three OAKES OCD PUMPS—one in basement, one in attic, one in garage.

FOR FARMS

Fire protection, plus spraying, disinfecting, whitewashing, watering the garden, or washing the family car. Every farm should have several OAKES OCD PUMPS.

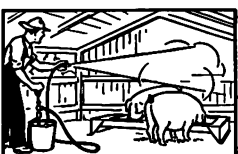

FOR FACTORIES

Pails of water at strategic points, plus an OAKES OCD PUMP stops small fires before they get out of control. 50 ft. stream will reach almost any roof.

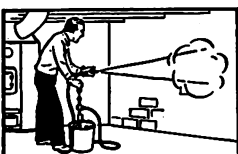

FOR SPRAYING

Ideal for mild insecticides such as soap emulsion, nicotine solutions, lime-sulphur, etc., where cost is not prohibitive and heavy application is not harmful.

FOR DISINFECTING

Ideal for disinfecting and whitewashing poultry houses, pig pens, dairy barns, milk houses, etc. Perfect for hot lye disinfecting. Non-clog nozzle makes spraying easy.

FOR WHITEWASHING

Makes a messy job easy. Quick, too. Whitewash the basement of chicken house in half the usual time. And do a better job. The nozzle doesn't clog.

FOR WASHING AUTOS

Where running water is not available, the Oakes OCD Pump makes a highly satisfactory auto washer. Change from solid stream to fine spray instantly.

FOR WATERING PLANTS

Handy for watering Victory gardens, flowers, etc., wherever running water and hose are not available. Remember, it throws a stream 40 to 50 ft. spray up to 16 ft.

FOR BOATS

An ideal bilge pump for canoes, skiffs, rowboats, small launches. Requires small space, ready for instant use. Gets all the water. Faster, more efficient than bailing.

OAKES STIRRUP PUMPS

Now Available...for Many Uses

Manufactured under contract for Defense Supplies Corp., THE GOVERNMENT has now released Oakes OCD Stirrup Pumps for sale to the general public everywhere. Other commercial stirrup pumps have sold as high as \$17.50. Now you can sell the dependable OAKES OCD Pump for only \$3.60 and make 40% on your investment. What a "break" for retailers right now when so many lines of merchandise are hard to obtain or are restricted in so many ways. No priority certificate necessary.

So useful are these pumps for fire protection, for spraying, disinfecting, whitewashing and watering VICTORY GARDENS, as well as for bomb quenching if ever needed, that every home, farm and factory should have several of them. Fire chiefs have rated them better than soda-acid extinguishers because they will give unlimited protection as long as water is available. REMEMBER, the OAKES pump will throw a stream 40 to 50 ft.—spray up to 16 ft.

"More For The Money"

In the Oakes Stirrup Pump

INSIST on OAKES OCD Pumps when ordering from your jobber. There are other pumps on the market—they ARE NOT IDENTICAL. Some sell for a few cents less than the OAKES. But—while the price is a little lower there is a VAST difference in value. Oakes has many outstanding points of superiority in design, materials and construction. Many more peacetime uses. The strainer screen is instantly removable—without tools. The one-piece stirrup is strong. To the best of our knowledge, no other pump has a discharge hose comparable to the Oakes VINYLITE plastic hose which is more impervious to oils, chemicals and insecticides than most rubber hose. The 2-way Dual Purpose Nozzle increases the variety of jobs which can be done with the Oakes pump. You sell quality, service and satisfaction when you sell the OAKES OCD pump.

Immediate Deliveries

Order from Your Jobber

Insist on Oakes. Accept no other. We are using seven farm papers and other publicity to develop consumer sales for you. Attractive window display materials and ad-mats furnished. ORDER from your jobber TODAY—give them a real showing, see how fast they sell.

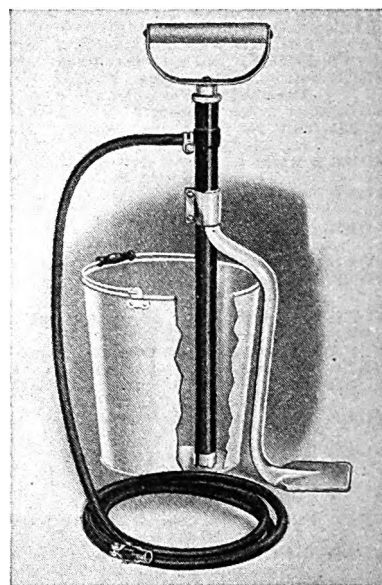

Your jobber has OAKES OCD Pumps or can get them in a few days. Orders sent direct to us will be cleared thru the jobber nearest you.

Let the OAKES OCD Pump help you make quick profits NOW! It's hot!

THE OAKES MFG. CO.

ORANGEWEAVE WRAPPING and BAGS

Will Help You Open A Second Front

The Hardware Manufacturers are doing a grand job in supplying our armed forces with vital equipment . . . and hardware merchants are doing an equally grand job in LAUNCHING A SECOND FRONT . . . keeping customers' good will.

In the turmoil of war, hardware merchants are not forgetting the day when hardware items will be plentiful—competition will be stiff—and good will of their past customers will be vital.

ORANGEWEAVE WRAPPING and BAGS with its attractive design . . . deep rich color and frequency of the word HARDWARE (made into the paper) will say HARDWARE to the buying public every minute of the day . . . and keep your products in the public mind during the war years, so they will be FIRST IN THEIR MINDS AFTER THE WAR IS WON.

Hardware RETAILER

National Retail Hardware Association

Volume LXV, No. 1

July, 1943

SUBSCRIPTION RATES: United States, \$1.00 a year; foreign,
\$2.00. EDITORIAL CONTENTS copyrighted, 1943, by The
National Retail Hardware Association.

THIS, the second **HARDWARE RETAILER** Directory, amplified and more complete in both Brand Name and Product listings, will be valuable in two important ways to the constantly growing number of hardware retailer and hardware jobber subscribers:

This New, Larger Directory Helps You 2 WAYS

1

A number of manufacturers, through their advertising in this issue, are offering merchandise which is now available.

The Product Section lists thousands of factory supply sources for merchandise which some hardware retailers and jobbers may not normally carry . . . but which now may be desirable to add to stock as a means of maintaining sales volume.

2

It will be apparent to Directory Issue users that many of the manufacturers advertising in this issue are deeply engaged in war work . . . and consequently are unable for the time being to supply merchandise in needed quantities for civilian use.

Both the Brand Name Section and the Product Section list these manufacturers under the products they normally make. Neither the management of **HARDWARE RETAILER** nor the manufacturers themselves believe that product listings should be dropped merely because the items are temporarily out of production.

Such items are the peace time products of manufacturers. Production of most of them will be resumed when the war is over. Then there most certainly will be a tremendous demand for goods of all kinds . . . and then retailers and jobbers will find the Directory a dependable "Buyers' Guide".

SMALL UNIT ADS

A New Service In This Directory

THERE is inaugurated with this **HARDWARE RETAILER** Directory a new service, so far as hardware directories are concerned, for retailers, jobbers and manufacturers. We refer to the small unit advertisements to be found in the Product Section. These supply Directory Issue users with more complete information about the products of advertising manufacturers than can be gotten from only a factory name listing.

WE URGE all **HARDWARE RETAILER** subscribers to make full use of this Directory throughout its full twelve-month life . . . and that when writing manufacturers, advertising or listed herein, be sure to say "Saw It in the **HARDWARE RETAILER** Directory".

4 WAYS to Use Your HARDWARE RETAILER Directory

1

BRAND NAMES

When seeking a product source by BRAND ONLY turn to the Buff colored pages of the Brand Name Section. There are over 17,000 brand names with no duplication of names from the same factories.

These include names in all branches of "hardware" used by both manufacturers and hardware jobbers.

2

PRODUCT NAMES

When seeking the source of a single item use the PRODUCT SECTION turning directly to the item such as—

Papers, Sand	Dampers, Stove Pipe
Brushes, Floor	Glues, Liquid.

When seeking sources on a line turn to that line such as—

Builders Hardware	Paints & Varnishes,
Lumbermen's Tools	General Line
Clipping Machines	Harness & Saddlery,
	General Line

3

LIKE PRODUCTS HAVING DIFFERENT NAMES

When in doubt as to the proper name of an item turn to the name you have in mind. Most frequently you will there find the manufacturers names or a reference line telling you where else to look, such as—

Pails
Also see Buckets

Cords
Also see Ropes

See Tumblers, Water

Catches
Also see Latches

Abrasives, Paper
Also see Papers, Emery
Also see Papers, Garnet
Also see Papers, Sand

Cleaners, Floor
See Squeegees, Floor
See Scrubbing Machines

4

UNLIKE PRODUCTS HAVING SIMILAR USES

Frequently "Another Product" will serve a similar purpose for the one preferred but which at the time may be difficult to obtain. Many such are cross referred each to the other, such as—

Cleaners, Gun, Liquid
Also see Compounds, Gun Cleaning

Compounds, Pruning
Also see Paints, Tree

Diggers, Dandelion
Also see Cutters, Dandelion
Also see Pullers, Dandelion
Also see Weeders, Dandelion

Foods, Plant
Also see Stimulants, Plant
Also see Fertilizers

Enamels, Screen
Also see Paints, Screen

3 MEN IN A TUB

[WITHOUT A PADDLE]

Landlubber Adolph and his balmy mates, Mussi the Mussle and Tojo the Squirt, are caught in the squalls, whipped by the hurricanes, lashed by the

gales of Allied fury... They're all at sea, having forgotten one little item—a paddle to row to port with. Those poor fish are really hooked!

PADCO OARS AND PADDLES SAVING LIVES OF ALLIED SEAMEN

In response to Uncle Sam's increased need for oars and paddles, the Pascagoula Decoy Company developed new methods of manufacture which make possible the ample production of oars and paddles to equip all our ships. Accurate machining achieves greater

conformity of contour and better balance. Every Padco Oar and Paddle is made for our superlative fighting seamen... After "V" Day, sportsmen everywhere will want these same superb Padco Oars and Paddles—and we will make them.

PADCO ASH OARS 6, 7, 8, 9, AND 10 FEET • PADCO CYPRESS PADDLES 4½, 5, AND 5½ FEET

Profits For You NOW in Duckoys

WILSON'S POPULAR **SUPER DART GAMES** The Recreation "Hit" of the Year

DART-BOWL

Bowling and Darts combined. Bowling fans form nucleus of BIG market. Size 30" square.

PAR-DART

Darts and golf combined. Appeals to golfers. Size 24x40". See above.

CARDART

Darts, Black Jack and Poker combined. All card players form market. Size 24x40".

SPELDART

A great family game. Combines darts and a clever kind of spelling "bee." Size 24x30". Also a complete line of 20-point and "Bull's Eye" and "Baseball" dart game.

Here is a line of successful merchandise that meets a definite wartime need—a line you can get—a line you can sell, profitably.

Under today's conditions, with travel limited both by rail and by car, new ideas for home recreation are a big item.

These new Super Dart Games are America's most popular answer to this demand. They combine competitive excitement with good fun, thrills, laughs, relaxation, and mild, beneficial exercise. There is a rich wide open market among homes, schools, clubs, camps, service rooms. Already a "smash hit" from coast to coast.

EIGHT SUPER ITEMS

This popular wartime line of Super Dart Games includes,—Dart-Bowl, Cardart, Par-Dart, Speldart, Eight Ball, Diddac-dart, Give and Take, Twenty Points and other variations. Large sizes and junior sizes. Attractive range of prices. All games processed in attractive colors on super-wood board. Complete with instructions, darts, etc. Get into this Super Dart game right away. Send at once for complete list with prices, discounts, etc. Wilson Sporting Goods Co., 2037 N. The folks at South Otselic

South Otselic is a village in the Chenango hills of New York. The Otselic River runs through it. In some places the river is still and deep. In others it leaps white and broken around a bend, and clots of foam swirl near the banks. Trout lurk in the shadows of those banks and the sheltering trees.

The folks at South Otselic are just like other villagers in God's country. I guess that above all else they want security—security, and the satisfaction that comes from doing useful work better than it was ever done before.

That sort of work is a tradition at South Otselic, passed down from fathers to sons. It started long ago when John Gladding opened a plant for making rope and cord. But the lure of the river was irresistible, and the early settlers soon turned their special skill to making the best fishing lines produced at that time. Ever since then, the folks at South Otselic

have been making fishing lines—and making them better.

Lines from this quiet village have sung from the reels of sportsmen and professionals in every ocean and all the streams and lakes in the world where fish rise to the fly and strike at bait. From the start, Gladding has maintained its leadership by the continuous adoption of new methods, new materials and new machines. Yet through 125 years of change, one thing has *not* changed, and that is Gladding's determination to give fishermen the best value for every dollar spent.

Today the assortment and number of fishing lines available is limited. The folks at South Otselic are busier than ever making other kinds of lines—lifelines—such as suture threads, and parachute shrouds and cords. In the same spirit in which they have contributed to the ways of peace, they work now for its return.

"You put the garbage on the cover, Maw, press the foot lever, and the garbage flies out the window to the pigs"

Here's One Use That Wasn't "In the Book"

**And We Don't Recommend It As
A Store Demonstration Idea!**

Sanette Kitchen Step On Cans have so many advantages and exclusive features, however, you will never have to rely on "stunts" to sell them.

Of course, you could sell many more than you are able to get just now. But every Sanette you *do* sell makes a friend for your store because Sanettes last longer and give better service.

Have you seen the new Sanette ads in women's magazines? They will help you sell more Sanettes than ever when restrictions are lifted. In the meantime, we shall continue to do our best to meet your requirements.

NORCROSS

GARDEN AND LAWN TOOLS

PRODUCTION of the well-known, fast-selling Norcross line of tools is definitely limited by Government wartime restrictions. The tremendous increase in individual family food production, however, does make essential tools a vital factor. And accordingly, the three items listed below are . . .

Available in Limited Quantity

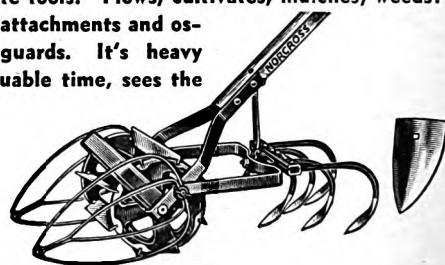

**Norcross No. 55-N
Hand Cultivator**

Built for the tough gardening jobs. Detachable prongs, 4 ft. selected white ash handle. Practical and durable.

Norcross Rotary V Cultivator (No. 10-N)

A most efficient use of materials because it does the work of many separate tools. Plows, cultivates, mulches, weeds! Complete with attachments and oscillating leaf guards. It's heavy duty, saves valuable time, sees the crop through.

**No. 25-N Norcross
Asparagus Knife**

A quality tool for important work. Quick, efficient V-blade is sturdy, STAYS sharp. Good for numerous jobs.

After "V-Day" you'll "Go To Town" with These Famous NORCROSS Tools, Too:

Specialty Hand Cultivators Dandelion Puller
V-Point Weeders "Out-U-Kum" Weed Puller

Sold only through Independent Channels

For **IMMEDIATE SHIPMENT**
and *More Profits*

SELL THEM THESE FOUR PROFITABLE WAYS:

1. **LAWN MARKER**—illustrated above and No. 1 below.
2. **PORCH MARKER**—hangs over porch entrance, No. 2 below.
3. **HOUSE NUMBER**—numbers only, for city homes, No. 3 below.
4. **CURB MARKER**—numbers on both sides of marker for double visibility, not illustrated.

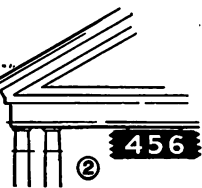

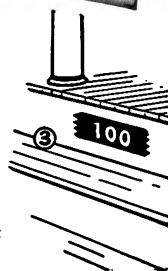

This new line is selling fast all over the country. It helps your customers show their addresses clearly night and day. The numbers are double-acting, glow in the dark and reflect light. The markers are weatherproofed for long outdoor use. Numbers are weather resistant, painted with a luminous paint and also treated to reflect light. Numbers sell for only 10c each. Markers with 4 numbers retail at \$1.00 each.

**GET SAMPLE NUMBER
AND CIRCULAR**

Send today for a sample numeral and the complete story. See how profitable X-RAY House Numerals and Markers are this year. Write today, before you forget.

Self-selling display rack **FREE** with 2 Gross Numerals. Holds 12 each of numbers 1 to 0.

ESTATE

ESTATE RANGES AND ESTATE HEATROLAS are products you could always sell with pride and profit. Estate always gave you an advantage over competition by offering the new things first. That will be true again—*tomorrow*. Right now, as you can judge from the Army-Navy E flying over our plant, we're busily engaged in war work to help bring tomorrow closer to today.

BUY WAR BONDS

There's
no restriction
on building
*Future
Business*

JUST what restrictions will be in force the day you read this page, is hard to say. War demands have stopped sales of some building materials, curtailed others. But remember—the ravages of time and weather continue to take their toll of farm buildings. And every additional month means just that much more replacement business for you to cash in on some day.

After the war, farmers will have money to spend—and they'll need new buildings. You can go after that future business now — with little effort and with no expense.

Here's how. Help farmers decide now on the types of buildings they want for their farms. Use our plans

for good, modern steel farm buildings. They are well-designed — fitted to modern livestock and poultry raising. Plans, in blueprint form, cover cattle shelters, poultry brooder houses and range shelters, and machinery sheds.

Bound together in a handy booklet for your own use—these plans are complete with the list of materials needed. Upon request you can secure individual plans for your farm customers. They're free.

Tie the future farm building boom to your store. Make it easy for farmers to plan now—and keep reminding them that your store is the place to buy U·S·S Roofing and Siding Sheets.

FREE Book of blueprints for modern steel farm buildings

Use these complete plans to build future business for your store. For your free copies, write to Agricultural Extension Bureau, 621 Carnegie Building, Pittsburgh, Pa.

The Signal for World Progress

☆ **WHEN THE FLAG** of Unconditional Surrender flies above their fox hole—signaling the day of our dreams—American industry and commerce will have the “go sign” on the roads that lead to a glorious new era of progress all over the world.

American manufacturers are doing more than dream about that day now—as they work to *hasten* the day of unconditional surrender. Many are beginning to plan and engineer for the future—improving and developing products—to explore the markets on the roads of peace and world progress . . . As we work to win the war, Noblitt-Sparks is planning for the future,

too. So you can be assured that the Arvin products to come after the war will carry all the sales appeal that can be built into them, as a result of 24 years of experience in engineering, manufacturing and merchandising.

To keep the Arvin name on our peacetime products alive for the duration, Noblitt-Sparks is carrying on an aggressive consumer advertising campaign of full pages in leading magazines such as *The Saturday Evening Post*, *Collier's*, *Life*, *American*, *Cosmopolitan*, *Better Homes and Gardens*, *Country Gentleman*, *Successful Farming*, and *Capper's Farmer*.

A great day is coming for all of us.

• NOW AVAILABLE WITHOUT PRIORITY—"FOR HOME DEFENSE"

THE WAR EFFORT FIRST

Within the limit of restrictions imposed on us by the War Effort, we continue to plan to give you needed merchandise.

While today's conditions make it impossible for us to offer our complete line of plumbing fixtures and household goods—we have been able to secure and offer many practical substitutes—items which will prove easily saleable and highly profitable.

We pledge to remain on the Alert, to bring you the "Most of the Best the Soonest!"

On restricted merchandise, we are shipping limited quantities on A-10 rating. Orders bearing higher ratings permit larger quantities and quicker deliveries.

NO-LEAK does away with old style washers and screws. Anyone can install this combination seat-and-washer in a "jiffy". Made of tough, wear-resistant compound, lined with brass, to provide a water-tight seal for all types of faucets, ball-cocks, showers, etc.

NO-LEAK will not close up in center, cannot affect volume of water at tap—completely covers pitted and water-creased seats. FOR HOT OR COLD WATER. No priority required.

➔ NO-LEAK's patented Brass Lining feature prevents shrinking; assures a steady flow of water.

Russell Jennings AUGER BITS

1943

No. 100—STANDARD POINT

Double thread screw point, our hand brace standard for many years. Especially favored by cabinet makers for its accuracy and boring ease in all woods.

No. 101—QUICK BORING POINT

Coarse, single thread screw point. This bit is very effective in gummy wood, as the thread will not clog.

**Marching to Victory!**

Hammond Products are on the march. They are assigned to combat duty in thousands of Victory Gardens. They won't camp long on your shelves, and they will keep moving throughout the summer. Be sure you have plenty in stock.

A Timely New Item
VICTORY DUST No. 76
Rotenone Substitute

Perfected over a year ago, in anticipation of the coming rotenone shortage, this new Dust meets the requirements of Victory gardeners everywhere. It is BOTH a contact and stomach-action insecticide. It also acts as a fungicide, making it the all-in-one dust.

SLUG SHOT 68 Years a Favorite

SLUG SHOT was the pioneer dusting insecticide, and is still a "best seller." Display it!

Nationally Advertised

Hammond Products are extensively advertised on popular Radio Programs, in Farm Papers, Florist Journals, Garden Magazines and Sunday Newspapers in leading cities.

FORGED IRON

A complete line of authentic reproductions in six attractive patterns enable you to sell McKinney Forged Iron for interiors as well as exteriors . . . and at a cost that compares favorably with any *good* hardware. Replenish your stock now and display **GENUINE FORGED IRON BY McKINNEY.**

MODERN CHROME HARDWARE

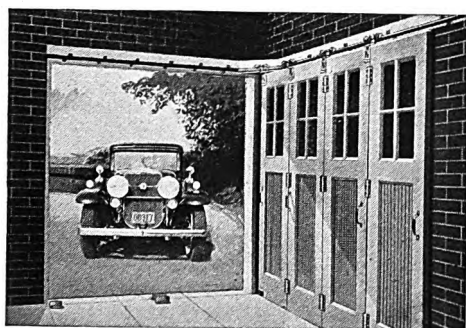

McKinney Cabinet Hardware is a **TOP QUALITY** line. All wood screws are **BRASS** (not steel) and **CHROME PLATED** (not nickel plated). Even the pins in the hinges are **BRASS** (not steel). A non-rusting metal base gives it freedom from tarnish. Heavy chrome plate gives it lasting beauty. Deliveries available from stock.

WROUGHT BRONZE, BRASS & STEEL BUTT HINGES

Furnished in all the standard finishes and available with either plain joints or with bearings. They are manufactured in light, regular and extra heavy weight for interior and exterior use. Bearing butts optional; ball bearings or the new Oilite bearings.

GARAGE HARDWARE

The McKinney Line of Garage Hardware includes "Around the Corner" **THREE** and **FOUR** Door Sets (illustrated)—"Under the Header"—"Sliding Folding" and "Swinging" Door Sets. All necessary hardware including track packed in strong wooden box.

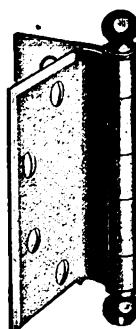

WROUGHT STEEL TEE HINGES

Made in various sizes and weights. Our catalog gives complete specifications or ask jobber's salesman to give data from his catalog pages.

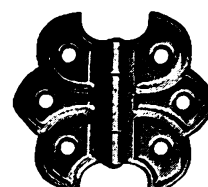

WROUGHT STEEL STRAP HINGES

Complete range of sizes and weights for every conceivable purpose.

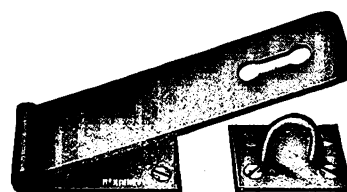

WROUGHT STEEL HALF AND FULL SURFACE HINGES

For wood doors with wood jambs. Only door jambs need to be mortised, beveled leaf fastened to surface of door.

PLATED WROUGHT STEEL FULL SURFACE ORNAMENTAL HINGES

Used principally for hanging doors in cupboards, bookcases, china closets and light cabinet work.

WROUGHT STEEL HASPS

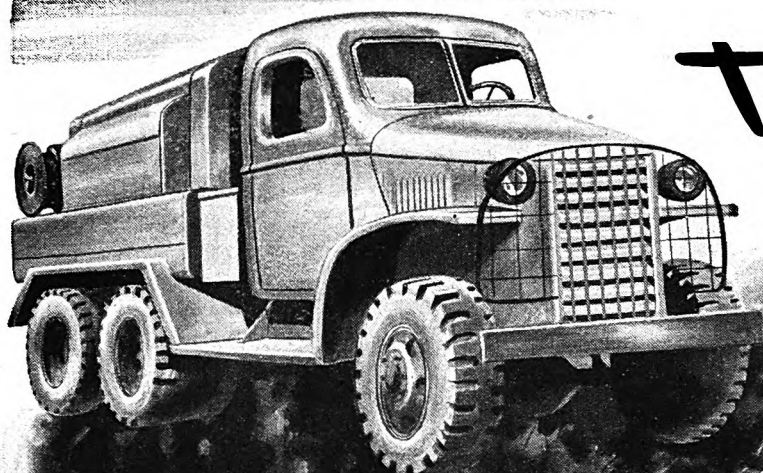

Strong safety hasp especially suitable for use on garages, barns, stables, implement sheds and other out-buildings.

Truck Assembly

BROADENS OUR RANGE OF EXPERIENCE

U. S. Army Trucks, used in far flung military engineering operations, are completed into field power plant units with air compressors and steel chests for tools and truck parts at the Lindemann & Hoverson plant.

Metal containers for parachute bombs and steel cases for electrical control apparatus come

from L & H sheet metal shops. And from our looms comes cartridge belt webbing instead of stove wicks. Tracer igniter shells and machined pins for tank tracks are now products of L & H. New precision in manufacture

is being used by L & H to help win the war. This same precision will be apparent in improved L & H post-war products when Victory is achieved. In your planning for peace, keep L & H in mind. It will be a good line to tie to.

THRIFT...IN A BIG WAY!

THE expression, "It's smart to be thrifty," surely hits the nail on the head and especially so in times like the present. The increases in the cost of doing business make all of us realize the importance and significance of thrift. The "Original Hardware Mutual" was founded upon the principle of thrift—sound insurance protection at the lowest cost consistent with safety. This company has returned millions of dollars to policyholders in the form of dividends, thereby giving rise to the expression, "Thrift in a big way."

"Hardware Mutual" has returned dividend savings to policyholders for over four decades—every year without interruption.

"Hardware Indemnity" was organized to carry on the same tradition for casualty insurance policyholders. It, too, has returned large dividends each year.

Premium dollars, invested in adequate insurance protection with these companies, pay a greater dividend than most of the dollars you invest in your business. Take advantage of the savings and thereby reduce your operating costs.

Insure Wisely . . . Safely . . . and Save the Difference

RADIONICS

with its subdivisions of Radio—Electronics and Radar

is speeding the Victory

What about the **FUTURE** of Radionics? At present, we can only speculate on what post war product developments in the larger field of Radionics will be, or what they will mean to you. But we do know that post war **RADIO** will mean the re-awakening of your business. Post war radio *must* be good if your business is to be good.

So we suggest right **NOW** you ask yourself some questions about your radio business and its past; get some answers on its future.

Question:

"Which brand of radio moved off my floor at the most rapid rate after civilian production ceased...after the sales, advertising and promotion pressure were called off?"

Check which in the order of movement.

_____ **Best**
 _____ **Second Best**
 _____ **Third**
 _____ **Last**

We *know* what your answer will be from the reports, nationwide, that Zenith was fastest-moving. Zenith, despite heavy production *before* the war needs shut off civilian radio, moved first off the retail floor and first into the home, when the selling heat was off and products moved alone on their merits and the reputations of their makers.

Never was there a better test of radio brand merit. Now that you have checked the past, think of the future. Better Zeniths are incubating right now.

Next month—another question important to your business. Watch for it. National manufacturers are making post war plans. This is a good time for you, the retailer, to lay some plans, too.

The surest way to increase milk production. Outstanding Starline features give positive, easy opening and automatic self-closing action. They can be used with any standard make of steel or wood stanchion frame.

CANNON BALL DOOR HARDWARE

Self-Oiling Door Hangers — Self-Cleaning Door Track. No uneven wear—ten cold rolled steel bearings can't twist or pile up. No matter how building sags, wheels conform to tubular track. Cannon Ball Track outlasts life of door. Hangers available in styles to fit various types of installation.

Starline

IN WAR PRODUCTION!

Starline is continuing to serve both our forces on the Fighting Fronts—and our forces on the Home Front.

Starline ingenuity and farsightedness have made it possible to turn out tools of war, as well as the extremely essential tools for increased dairy production.

For over 60 years Starline has continually progressed in providing equipment with the latest in design and construction improvements. Many of the features of modern dairy farm equipment have been Originated, Patented and Perfected FIRST by Starline.

TOOLS

are Expendable

The busy hands of millions of workers are wielding *tools* to build and maintain the mighty war machine that is speeding the doom of the Axis . . . and many of them are Stanley Tools.

In much of this work, there is little time to give good tools the care they would get in peacetime. They are abused by "green" hands, used up, worn out faster. Until Victory is won, this abnormal wastage will continue. Tools are expendable.

War Industries Rely on STANLEY for Replacements

To provide replacements in the quantities needed at construction jobs, repair shops, factories, and fighting fronts requires maximum production effort by Stanley workers. They are meeting the demand with such outstanding success that the "E" flag now flies over "The Tool Box of the World".

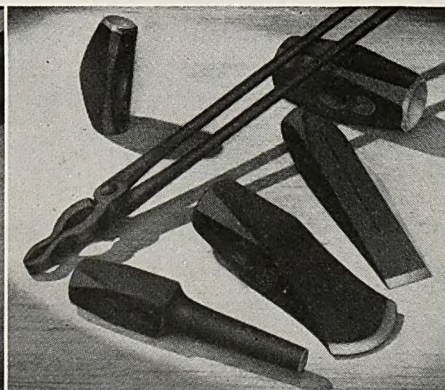

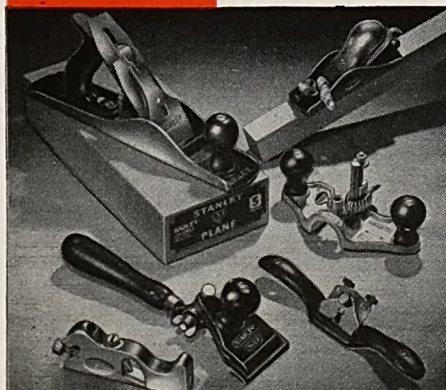

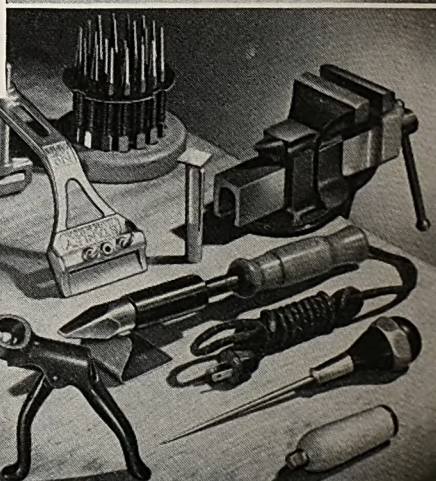

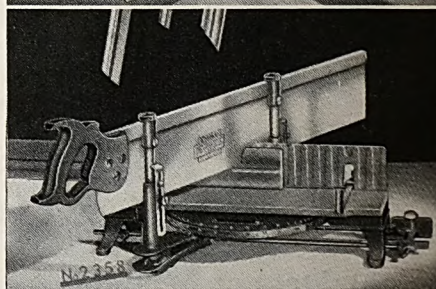

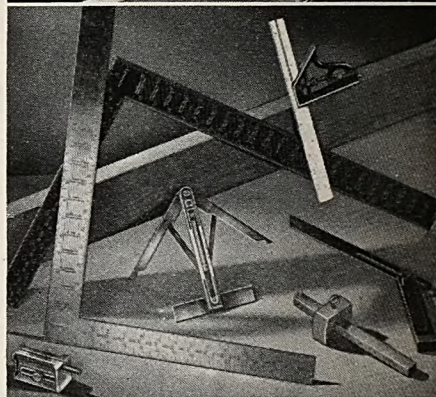

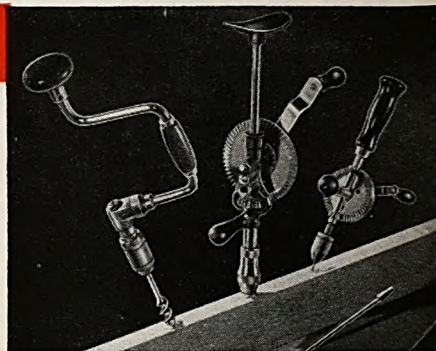

When Victory is won, Stanley Tools will again be available in quantity for the carpenters' normal needs, for the hobbyist and householder. Stanley window and counter displays, sales literature, and other merchandising helps for the dealer will be even better than they were before Hitler turned the world upside down. WARE HI-LAG FUSES

• On many industrial fronts, WARE HI-LAG Renewable Fuses like cool sentinels, are guarding production lines in defense plants, shell loading plants, arsenals, ships and tanks—in hot spots where ordinary fuses blow.

Keeping Our Boys Physically Fit

"CHICAGO" TRADE MARK REG. U.S. PAT. OFF. ROLLER SKATES

From youngster to Marine, "CHICAGO" Roller Skates have helped to develop strong, healthy, robust bodies. They are now being used by service men as part of their recreational activities in Camps, aboard ship and overseas. Even in war plants like Douglas, North American Aviation and others, "CHICAGO" Roller Skates are helping to speed production.

Screw Machine Division Vital to Victory

SCREW Machine Products

Long known for precision work, our automatic screw machine division is producing vital parts—ammunition components for the Ordnance Dept. (Booster Fuses, Percussion Primers, etc.) on prime contracts. Also Electrical Connectors, Firing Pins, Primer Holders, Detonator Holders, etc., on sub-contracts.

Every operation in our plant is now being devoted to winning the war—contributions which lead to VICTORY.

Army-Navy "E" Production Award Presented to Irwin Employees April 16, 1943.

Looking Ahead

AMERICA is looking ahead to Victory—to the time when all of us can resume a peaceful and normal living. To the day when our boys in service will be living with us at home instead of in fox holes. When steaks, gasoline, tires and shoes are plentiful and peace-time business is resumed.

For many industries it will be a tremendous task to convert from war production to their regular business. Fortunately, the back-bone of our equipment for making wood-boring tools and screw drivers was designated to remain intact for the purpose of supplying the war effort. For us, conversion will come easily and quickly, with little or no break in the production of our peace-time products that now are so vitally important to winning the war.

It is well for all of us to look forward and plan for the future, but the job now on hand must come first and to a successful end before tomorrow's plans can become a reality.

WIRE CLOTH RECOGNIZED BY THE GOVERNMENT AS ESSENTIAL FOR CIVILIAN USES

While great quantities are serving our armed forces, limited amounts of Cyclone Hardware Cloth have been allotted for such civilian uses as rat-proofing and for sanitary floors for poultry houses. Cyclone Screen Cloth, also in limited quantities, has been diverted to protect civilians from disease-carrying insects.

We, too, recognize this great need and will fill the demand as much as possible. Your jobber also will do all he can to help you get U·S·S Cyclone Hardware Cloth and Screen Cloth. Consult him often concerning available supplies.

BURNER BASKETS

LAWN FENCE

There's no shortage of Cyclone Quality

CUSTOMERS are getting used to waiting. Most of them show patience and understanding. But now, more than ever, the things they get must be good—must last a long time.

Wartime limitations have cut quantities to the bone. But there's no shortage of Cyclone quality. The Cyclone "Red Tag" still represents high-quality standards. In the post-war scramble for goods this quality trade-mark can, as in the past, help you make easier, quicker sales.
